SELECTED INDEPENDENT PROJECTS

SwimTrackr

San Luis Obispo, CA

React, TypeScript, Supabase, Tailwind CSS

January 2025

- Developing a full-stack app for swim facilities and parents to track student progress through milestones.
- Implementing Supabase Auth with role-based access for admins, managers, instructors, and parents.
- Built a responsive UI with Tailwind CSS for a seamless multi-device experience.
- Integrating real-time progress updates via Supabase's real-time subscriptions.
- Leveraging Supabase and PostgreSQL for scalable data management.

Auxos

San Luis Obispo, CA

Next.js, TypeScript, Supabase, Tailwind CSS

January 2025

- Developing a gamified productivity app where users join "circles" with friends for mutual accountability.
- Using Supabase to handle authentication and group permissions.
- Designing dynamic dashboards and streak tracking using Next.js Server Actions.
- Focused on intuitive UX and clean design for both web and mobile users.

WORK EXPERIENCE

Founder and Lead Instructor

Vancouver, WA

Taylor'd Instruction LLC

June 2023 - Present

- Founded and operate an American Heart Association Training Site and American Red Cross Licensed Training Provider, teaching CPR and first aid to individuals and corporate clients.
- Built and maintain the company website, integrating online registration, payment processing, and automated confirmations.
- Manage class scheduling, student records, and certification processes.
- Developed strong project management, customer service, and communication skills through direct client work and instructor coordination.

Aquatics Lead and Instructor Trainer

Vancouver, WA

Clark County Family YMCA

January 2022 – Present

- Supervising and training a team of 50+ lifeguards and instructors, ensuring consistent safety standards and high-quality instructional delivery.
- Taught CPR, Lifeguarding, and First Aid certification courses, developing strong public speaking and technical teaching skills.
- Optimized lesson and staff tracking systems to monitor student progress, gaining early experience in data organization and process improvement.
- Collaborated with aquatics leadership to optimize scheduling, training processes, and team communication.
